

HisabDo — Requirement-to-Test-Case Mapping

Capstone Project | Track: Software Quality Assurance

Day: 11

Tester: Mohamed Hany — Junior Software Tester (ISTQB CTFL v4)

Purpose: Map important Day 11 requirements/features to corresponding executed test cases and results.

Requirement Mapping

#	Requirement / Feature	Test Case ID(s)	Result
1	Built-in calculator performs calculations correctly and handles division by zero	TC_D11M01, TC_D11M02	PASS
2	Customer phone number validation accepts valid numbers and rejects invalid ones	TC_D11M03, TC_D11M04	PASS
3	Transaction attachments support valid images and reject unsupported file types	TC_D11M05, TC_D11M06	FAIL — BUG_001
4	Minimum transaction amount is accepted correctly	TC_D11M07	PASS
5	App restores the last viewed screen after returning from background	TC_D11M08	PASS
6	Transaction filtering works correctly for valid and invalid date ranges	TC_D11M09, TC_D11M10	FAIL — BUG_002
7	Dashboard totals remain accurate after deleting a transaction	TC_D11M11	PASS
8	Users can search transactions by customer name, amount, and category	TC_D11M12, TC_D11M13, TC_D11M14	PASS
9	Users can search customers by phone number/name and receive proper no-results behavior	TC_D11M17, TC_D11M18, TC_D11M19	PASS
10	Users can upload customer details from device contacts	TC_D11M20	PASS
11	Website navigation and homepage access work correctly through anchors and logo/header	TC_D11W02, TC_D11W06	PASS
12	Website handles boundary/error conditions such as malformed URLs, disabled JavaScript, and unexpected URL casing	TC_D11W08, TC_D11W12, TC_D11W14	PASS

Defect References

BUG_001: A transaction photo/receipt can be attached, but the attached photo is not displayed in transaction details.

BUG_002: Filtering transactions by a selected date range returns transactions outside the selected range.

Mapping Summary

The mapping contains 12 important requirements/features, exceeding the Day 11 minimum requirement of 10. Each requirement is linked to one or more Day 11 test case IDs, and the results reflect the executed test suite.
